

Intern Communication Report

Date: 6/24/2025

Submitted by: Hira Malik

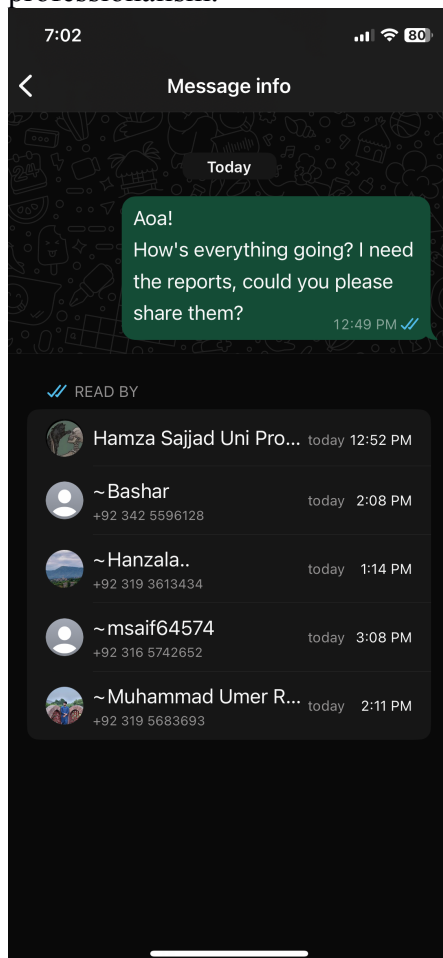

Subject: Lack of Response from Interns Despite Message Views

It has come to my attention that four of the interns—Saif, Umer, Eman, and Hanzala—have consistently seen my messages in the group/chat but have not responded or acknowledged them.

Despite multiple follow-ups and clear instructions, there has been no engagement or timely communication from their side. This delay in response is affecting the overall coordination and progress of the assigned tasks.

Timely communication is essential for smooth workflow and team collaboration.

Ignoring messages not only causes delays but also reflects a lack of responsibility and professionalism.

Thank you for your cooperation and understanding.
