General Report Info

Field	Description
Date	July 2, 2025
Internship Track	Graphic Design
Team Leads	Hamza Sajjad
Day	Day 3

Daily Summary (Team-Wise)

Category	Remarks
Overall Attendance	8 out of 8 interns joined today's session
Response & Activeness	All interns were highly engaged, participated actively in design discussions

Common Questions Asked

• How to apply mock-ups using smart objects in Photoshop
• Difference between 3D mock-up layers and flat design presentation
• How to adjust lighting and shadows for realistic mock-up integration

Issue Resolution

Mock-up presentation issues were addressed by reviewing smart object placement, transformation techniques, and layer style enhancements.
Interns received guidance on maintaining perspective accuracy and matching lighting with product context.

General Observations

Interns actively explored mock-up templates, shared screens for feedback, and submitted refined versions. Noticeable improvements were observed in perspective placement, realism, and use of layer styles.

Suggested Improvements

Interns should:
• Explore premium and editable PSD mock-up files
• Practice refining smart object layer masks and clipping paths
• Experiment with realistic textures, lighting angles, and shadow overlays
