Daily Summary (Team-Wise)

Category	Remarks
Overall Attendance	12 out of 12 interns joined today's session
Response & Activeness	Interns remained attentive and actively participated in all responsiveness-based activities

Common Questions Asked

• How do media queries work with mobile-first design?
• What is the correct order of writing breakpoints?
• How to test responsive design across different screen sizes?

Issue Resolution

• Explained the syntax and structure of `@media` rules with practical breakpoints
• Showed live examples of switching layouts using screen widths
• Demonstrated the use of browser dev tools to simulate various devices

General Observations

• Interns were quick to grasp the concept of breakpoints
• Many implemented custom layouts that responded to screen size changes
• Some interns experimented with hidden elements based on screen widths

Suggested Improvements

• Practice using `em` and `rem` units for scalable layouts
• Define standard breakpoints for consistency across devices
• Try combining media queries with flex/grid for stronger layouts
